I have had my Hearing Aid for almost 3 months now. It has changed my life enormously. I can now hear what is discussed in my family discussions in a group or in a restaurant, where I would normally not be able to join in the conversations. Thank you Les.

I have my hearing aid for five months now and have never looked back. I can now hear what other people are saying when in a group of friends. And I can set it softer to shut-off the heavy traffic noise on our busy road where my office is situated. Thank you Les.

I have been total deaf in one ear since birth. This makes me dependent on hearing aid. In the last 5 years I paid for the normal testing and providing with two different makes of hearing aids exhausting my medical aid completely. The second device was needed because the first one became outdated and could not be reprogrammed. I now get my hearing aid from Splendld Hearing for a fraction of the price I would pay at audiology clinics.

Jan, once again I thank you. You have made such a difference to our lives with your hearing aid. Glyn no longer wears the expensive aids that we paid a fortune for because they don't give him the clarity that your device does... thank you once again Les..

I had mine fitted yesterday. Thank you Les . I had a pair or Resound aids which were lost in a car accident 4 years ago. These are better than the expensive ones I used to have. I was under the impression that I would never be able to have hearing aids again as I am not on medical aid. How wrong I was. I 101% recommend Les and his product

Zakhele Mahlalela

I got one for my self.Thanks to Mr Les im very happy bcs now i can communicate simple it helping me alot.

Mine works like a charm, and the back up service and advice from Les Curren is first class. Compares to my wife's R57000.00 set in all respects

Just received my second set from Les. First one has been through the washing machine, and had spilt gravey all over it. Still working 100%. Exccactly the same quality as my wife's pair, which was bought from the local audioligists at eight times the price!

Just an all round, wonderful experience and more importantly a dad who came away after years of battling with fancy, expensive aids, able to hear and not too out of pocket. Would recommend to anyone.

Re: Hearing aid

Good morning Les

I have received and fitted my device. Obviously it is early days ,but so far so good. The only draw-back I have is that I cannot use my device when using my stethoscope! But I knew that beforehand. I just want to thank you for your excellent service,friendliness and utmost dedication towards your customers. I will really recommend you to all my patients.

Have a nice day

Wim
